

**Solicitation Number: 06-0001-15**  
**Extended Operations Analysis Program (EOAP)**  
**Support Service for the Office of Naval Research Operations Analysis Program (OOF)**

The statement of work, order information, proposal submission requirements, and evaluation information are set forth below. Proposals from holders of ONR Multiple Award Contracts (MATOC) for support services under CLIN 0001 – Technical, Programmatic, and Engineering Services are due by 2:00 PM (local), Monday, 15 May 2006.

## **1.0     Background**

The Chief of Naval Research (CNR) manages and directs science and technology programs critical to the current and future operational effectiveness of the Navy and Marine Corps. Operational readiness and performance analyses can provide fleet commanders, CNR and S&T program managers with critical insight for rationally identifying, developing, transitioning, integrating and exploiting advanced technologies to significantly enhance fleet readiness and performance.

The Office of Naval Research (ONR) Operations Analysis Program (ONR 000A) in support of Commander, US Pacific Fleet (COMPACFLT) has established an Extended Operations Analysis Program (EOAP) to develop analytic approaches that more accurately evaluate fleet readiness levels. The concept is to develop a methodology for collecting data that measures unit and above-unit performance and employs these results to develop an analytically rigorous model to assess a strike group's unit and above-unit level readiness. This is an on-going effort that has collected Carrier Strike Group (CSG) and Expeditionary Strike Group (ESG) operational performance data in certain mission areas and developed an operational sequence model (OSM) that utilizes this data to assess operational readiness. Continued development of this approach will provide significant value to the fleet and to technology development.

This is a continuing requirement. The incumbent is Schaffer Corporation under Contract Number N00014-04-D-0516, Task Order 0001.

## **2.0     Statement of Work**

### **2.1     Objective**

The Extended Operations Analysis Program (EOAP) is a continuing effort to develop a methodology to assess operational readiness by using operational sequence models to measure operational performance. The models, in their current form, will be made available to the successful offeror to continue the development of the models, data collection and readiness assessment methodology.

### **2.2     Scope**

In the course of daily operations and in support of basic, intermediate, and advanced training evolutions, Naval units and groups generate opportunities for collecting operationally relevant performance data from which readiness assessments can be made. The objective of this solicitation is the assessment of CSG and ESG operational readiness by modelling, and by the collection and analysis of operational performance data.

This effort entails continued use of the OSM approach to decompose operational missions identified in the statement of work into a set of essential tasks whose outcome can be measured. The OSM takes the data developed by these measurements as an input and produces operational performance indices that can be employed to evaluate a strike group's readiness at unit and above-unit levels.

## **2.3 Technical Tasks/Requirements**

### **2.3.1 Performance Index Development**

The Contractor shall develop models and performance measures in a designated mission or functional area to support the “readiness assessment based on operational performance” concept. The index will be developed, using an Operational Sequence Model (OSM) approach including identification of key operational drivers (KODs) for both Navy (USN) and, as applicable, Marine Corps (USMC) embarked operations and development of measures utilizing the Naval Mission Essential Task List (NMETL) approach, to accomplish the performance data collection and assessment for a CSG/ESG. The Contractor will be required to:

- Develop the OSM
- Identify key operational drivers (KODs)
- Define a Naval Mission Essential Task (NMET) framework for performance measures, defining new NMETs as necessary.
- Identify operational events to use as data collection opportunities to test and validate the indices
- Develop a data collection template
- Develop and validate indices for unit-level operations
- Develop and validate indices for above-unit-level operations

### **2.3.2 Strike Warfare (STW)/Anti-Submarine Warfare (ASW)/Air Defense (AD)/Surface Warfare (SUW)/Mine Warfare (MIW)/Maritime Interdiction Operations (MIO) Performance Assessments for Carrier Strike Groups (CSG)**

The Contractor shall apply the current operational performance assessment methodology and indices developed for designated CSG warfare areas, including STW, ASW, AD, SUW, MIW, and MIO, and provide a pilot deployment during the CSG Fleet Readiness Training Plan (FRTTP) cycle that includes the AD, SUW, MIW and MIO indices. The notional number of operational events supported is nine and may include: Ship-Launched Land Attack Missile Exercise (SLAMEX) (multiple events), Texas Thunder, Strike Fighter Advanced Readiness Program (SFARP), Carrier Air Wing (CVW) Fallon Training Detachment, ASW Exercise (ASWEX), Southern California Offshore Range ASW Exercise (SCORE) (multiple events), Single Ship ASW Team Training (SSASW TT) (multiple events), Composite Unit Training Exercise (COMPTUEX), and Joint Task Force Exercise (JTFEX). The exact number of operational events in each case will depend on the individual CSG /unit schedules.

### **2.3.3 Strike Warfare (STW)/Anti-Submarine Warfare (ASW)/Expeditionary Warfare (EXW)/Air Defense (AD)/Surface Warfare (SUW)/Mine Warfare (MIW)/ Maritime Interdiction Operations (MIO) Performance Assessments for Expeditionary Strike Groups (ESG)**

The Contractor shall apply the current operational performance assessment methodology and indices developed for designated ESG warfare areas, including STW, ASW, EXW, AD, SUW, MIW, and MIO, and provide a pilot deployment during the ESG Fleet Readiness Training Plan (FRTTP) cycle that includes the AD, SUW, MIW and MIO indices. (The STW, ASW and EXW pilot deployments have already occurred under the precedent contract.). The notional number of operational events supported is ten and may include: Ship-Launched Land Attack Missile Exercise (SLAMEX) (multiple events), Texas Thunder, Aviation Combat Element (ACE) Training Exercise (TBD), ASW Exercise (ASWEX), Southern California Offshore Range ASW Exercise (SCORE) (multiple events), Single Ship ASW Team Training (SSASW TT) (multiple events), Rapid Response Planning Process (R2P2), ESG Integration Exercise (ESGINT), Composite Unit Training Exercise

(COMPTUEX), and Joint Task Force Exercise (JTFEX). The exact number of operational events in each case will depend on the individual ESG /unit schedules.

## **2.4 Reports Data and Other Deliverables**

The Contractor will prepare and submit the following deliverables:

**2.4.1** Prepare Monthly Status Reports. The Contractor shall prepare monthly status reports due by the 15<sup>th</sup> of the month. The monthly status reports shall include the tasks assigned/performed, accomplishments, and list significant memoranda, white papers, briefings, technical reports or other significant documentation. Contractor format is acceptable.

**2.4.2** Prepare internal financial notices, instructions, guidelines, and reports as required by the ONR Program Officer.

**2.4.3** Prepare a Performance Index and Data Collection Template for Warfare Areas in accordance with paragraph 2.3 Technical Tasks/Requirements as required by the ONR Program Officer.

**2.4.4** Prepare an assessment of observed and measured CSG warfare readiness, provided as input for evaluation by COMSTRKFORTRAPAC, or another designated Navy authority, as required by the ONR Program Officer.

**2.4.5** Provide an assessment of observed and measured ESG warfare readiness, provided as input for evaluation by COMSTRKFORTRAPAC, or another designated Navy authority, as required by the ONR Program Officer.

**2.4.6** Provide a comprehensive report on the assessment of the index/methodology's value and utility to Navy Commanders. The report is due at the end of the base period and if exercised, at the end of each option period. The report will provide an assessment of the utility of the application of the performance assessment methodology during Fleet operational events, identify all completed tasks, and identify remaining tasks.

## **3.0 Personnel Requirements**

### **3.1 Personnel Qualifications**

The Contractor shall provide qualified personnel to manage and execute all aspects of the statement of work. The following skill sets are anticipated to support the tasks:

**3.1.1** All personnel must be thoroughly familiar and proficient in the use of commercial software packages such as Microsoft Word, Project, Excel and PowerPoint.

**3.1.2** To perform the technical tasks and requirements, contractor personnel shall demonstrate competencies and expertise in the following areas:

- In-depth experience, expertise, and knowledge of performance oriented readiness assessments of U.S. Pacific and Atlantic Fleets and their units.
- In-depth experience, expertise, and understanding of operational sequence modeling.
- In-depth experience, expertise, and knowledge of utilizing operational sequence modeling in Navy fleet-level performance oriented readiness assessments.
- Detailed experience-based knowledge of key Navy mission areas, especially expeditionary warfare (EXW), anti-submarine warfare (ASW), strike warfare

(STW), air defense (AD), surface warfare (SUW), mine warfare (MIW), and maritime interdiction operations (MIO).

- In-depth experience, expertise and knowledge in capturing function-level data identified through operational sequence modeling and integrating these data into mission performance estimates and determining relevant warfare functional subtasks/events to capture unit-level data at all available/appropriate opportunities.
- Mathematical and statistical skills necessary to perform original research on the problems posed by the fragmented and incomplete data samples to be expected to result from fleet data collection.

**3.1.3 Senior Operations Analyst or Equivalent:** The candidate should have at least a Bachelor's degree from an accredited college or university and fifteen (15) years of experience in Navy and Marine Corps fleet operations. The candidate should have demonstrated competence in operations research and analysis having participated in, and conducted operations research and analysis for a minimum of five (5) years of recent experience. The candidate should be able to communicate orally and in writing. The candidate must have or be able to obtain a SECRET clearance at the time of award.

**3.1.4 Operations Analyst:** The candidate should have at least a Bachelor's degree from an accredited college or university and eight (8) years of experience in Navy and Marine Corps fleet operations. The candidate should demonstrate competence in operations research and analysis having participated in, and conducted operations research and analysis for a minimum of two (2) years of recent experience. The candidate should be able to communicate orally and in writing. The candidate must have or be able to obtain a SECRET clearance at the time of award.

## **3.2 Level of Effort**

**3.2.1** The level of effort has been estimated for the proposed contract. Both a one year base period and four (4) twelve (12) month option periods have been defined.

**3.2.2 Base Period:** The base period of performance will be from time of award through twelve (12) months. The level of effort anticipated for this period is approximately four (4) man-years at an average rate of approximately 613 hours per month. A summary of the labor categories and the total anticipated annual hours for this effort is provided below.

<b>Labor Category</b>	<b>Hours Per Year</b>
2 Senior Operations Analysts	3,680
2 Operations Analysts	3,680
Total	7,360

NOTE: 1840 hours is equivalent to one (1) man-year

**3.2.3 Option Periods:** The period of performance for each Option period shall be from the effective date of the option exercise through twelve (12) months thereafter. The level of effort anticipated for this period is approximately four (4) man-years at an average rate of 613 hours per month. A summary of the labor categories and the total anticipated annual hours for this effort is provided below.

<b>Labor Category</b>	<b>Hours Per Year</b>
2 Senior Operations Analysts	3,680
2 Operations Analysts	3,680
Total	7,360

NOTE: 1840 hours is equivalent to one (1) man-year

**3.2.4** The above labor categories and hours are provided as the Government's best estimate of the work to be performed. The offeror may propose the same level of effort (hours and labor categories) or a different level of effort based on its own labor classification system and unique approach to satisfy the Government's requirement. While the Government will consider an alternate level of effort, it is the Government's preference to maximize the estimated labor hours devoted to the direct performance of the technical tasks. To the extent that the level of effort proposed is different than the Government's estimate, the offeror's technical proposal should clearly specify the hours and labor categories proposed for each task in the statement of work.

#### **4.0 Order Details**

**4.1 Contract Type:** The Navy anticipates awarding a cost plus fixed fee level of effort task order.

**4.2 Period of Performance:** Base period of twelve (12) months from time of award with four one-year options.

#### **4.3 Other Direct Costs (ODCs)**

ODCs (including travel, supplies, etc.) will be reimbursed at cost plus G&A without profit or fee. Purchases of items (other than consumable materials or supplies) exceeding \$2,500 and all travel must be approved in advance by the Contracting Officer's Representative (COR). The total Travel/ODC amount is not to exceed \$50,000.00 per year.

This NTE amount should be proposed and included as part of the cost total (without profit or fee) in every proposal submitted under this solicitation.

**4.3.1 Travel and Per Diem** - Travel will be required to support this Statement of Work. In accordance with the contract requirements, direct costs associated with the Contractor's travel, including per diem, shall not exceed the applicable rates found in the Federal Travel Regulation (FTR) and/or the Joint Travel Regulations (JTR). All travel arrangements under the Contractor's responsibility include: clearance requests, hotel accommodations, travel orders, and visa/passport requirements, unless otherwise stated by the Government sponsor.

**4.3.2 Other Direct Costs (Other than Travel and Per Diem)** - ODCs may be required to fully support this task requirement. At this time, the specific items cannot be identified; however, the ODC and Travel cost total cannot exceed the NTE amount stated in Section 4.3.

**4.4 Place of Performance:** Work will normally be performed at the Contractor's facilities and at Government facilities, including Fleet units at-sea.

**4.5 Government Furnished Resources (GFR):** The Government will provide information, material and forms unique to the Government for supporting the task. The Government furnished resources necessary to perform the statement of work should be identified and requested through the designated Contracting Officer's Representative (COR).

**4.5.1 Facilities, Supplies and Services:** The facilities required to perform the tasks outlined in the Statement of Work will be at the Contractor's place of business and at sea.

**4.5.2 Information:** All Government unique information related to this requirement necessary for Contractor performance will be made available to the Contractor. The Contracting Officer's Representative (COR) will be the point of contact for identification of any required information to be supplied by the Government.

**4.5.3 Documentation:** All existing documentation relevant to this task's accomplishment will be made available to the Contractor at the beginning of the task. The Contractor will be required to prepare documentation in accordance with defined guidelines provided by the Government.

**4.5.4 Equipment:** With the exception to the basic facility items noted Subsection 4.5.1, and in accordance with the general guidance in FAR Part 45.102, Contractors are required to furnish all property necessary to perform on Government contracts or orders. PC's should not be proposed as a direct charge under this solicitation.

**4.6 Subcontracts/Consultants:** Contractor may request or propose, on a case-by-case basis, subcontract/consultant support for specific technical tasks.

**4.7 Security Requirements:**

(a) Clearance Requirements. During the performance of the effort, the Contractor may be required to have access to, and may be required to receive, generate, and store information classified to the level of TOP SECRET. For personnel, a minimum of a SECRET clearance is required. Any Contractor facilities used in support of this contract must be granted TOP SECRET facility clearances and have the capability to store material classified up to and including SECRET. A DD Form 254 will be required prior to access or production of any classified information. Additionally, Contractor is required to safeguard the information labeled as proprietary.

(b) Privacy Act. All Contractor personnel assigned to this task will have access to information that may be subject to the Privacy Act of 1974. The Contractor is required to ensure the proper safeguarding of such information to prevent unauthorized release.

(c) Nondisclosure Agreement. In the course of its work, each employee of the selected Contractor will be required to execute a Nondisclosure Agreement (NDA) as outlined in Section 5.2.1 of this solicitation.

**4.8 Organizational Conflict of Interest**

**4.8.1 Safeguarding Information**

The parties acknowledge that, during performance of the contract resulting from this Order solicitation, the Contractor may require access to certain proprietary and confidential information (whether in its original or derived form) submitted to or produced by the Government. Such information includes, but is not limited to, business practices, proposals, designs, mission or operation concepts, sketches, management policies, cost and operating expense, technical data and trade secrets, proposed Navy budgetary information, and acquisition planning or acquisition actions, obtained either directly or

indirectly as a result of the effort performed on behalf of ONR. The Contractor shall take appropriate steps not only to safeguard such information, but also to prevent disclosure of such information to any party other than the Government. The Contractor agrees to indoctrinate company personnel who will have access to or custody of the information concerning the nature of the confidential terms under which the Government received such information and shall stress that the information shall not be disclosed to any other party or to Contractor personnel who do not need to know the contents thereof for the performance of the contract. Contractor personnel shall also be informed that they shall not engage in any other action, venture, or employment wherein this information will be used for any purpose by any other party.

#### **4.8.2 Organizational Restrictions**

Support contractor's knowledge of competition sensitive information, described in paragraph above, may unfairly affect its competitive position in future ONR research solicitations. The Contractor understands that, during performance of the contract resulting from this Order solicitation and for a period of up to two years after the completion of its performance of the contract, the Contractor, any affiliate of the Contractor, any joint venture involving the Contractor, any entity into or with which the Contractor may merge or affiliate, or any other successor or assign of the Contractor may not be eligible to participate as a prime Contractor, subcontractor, consultant, joint venture, partner, or other agreements directly impacted by the Extended Operations Analysis Program.

### **5.0 Proposal Requirements**

**5.1 Proposal Format:** The Offeror's proposal must be divided into two sections: (1) Technical Proposal, and (2) Cost Proposal. Information for the technical portion shall be a separate and segregable document from the cost proposal. No cost information should be included in the technical section. The length of the technical proposal shall not exceed ten (10) pages, exclusive of resumes. There are no page limits on the number of resumes or the pages of the cost proposal. The proposal should be written and organized to be compatible with the Statement of Work, company's organization and accounting structure, and proposed cost.

**(a) Technical Proposal:** The technical proposal should include the following: The Offeror's understanding of and approach to the requirement, resumes of proposed personnel, and the amount of proposed hours for personnel. The Offeror should describe specifically how the work activities required to complete the tasks in the statement of work will be done. The Offeror should explain how technical objectives, tasks and deadlines will be determined; how staff responsibilities will be assigned; whether and to what degree consultants and/or subcontractors will be utilized; how the quality and timeliness of work performance will be supervised and controlled; how the Offeror will coordinate with the program office; how a surge capacity will be maintained to meet unanticipated requirements; and how administrative tasks such as travel, security and resource requests will be handled.

The Offeror should include information relative to previous efforts for the same or similar services provided in the past to include contract numbers and Government points of contact where applicable.

The Offeror should explain what corporate facilities are available and would be used in support of the work including computer resources, publication/media materials and equipment where appropriate. The proposal should acknowledge that the Contractor will provide the appropriate IT/telecommunications equipment for the proposed personnel for this task order.

**(b) Cost Proposal:** The Offeror should submit a cost proposal that itemizes the following proposed costs (as applicable): direct labor (including each labor category with associated proposed hours and hourly rate), fringe benefits, labor overhead, consultants, subcontracts, subcontractor/consultant handling charges, G&A, cost of money, fixed fee and any other relevant cost categories. The Offeror should also include the estimated Travel and ODC amounts set forth in the "Other Direct Costs" section of the solicitation as part of its proposed costs. The base calculation and rates must be provided for all indirect cost items. Subcontract cost information containing the same type of details described above for the prime must be provided either with the proposal (it can be submitted in sealed envelope) or mailed separately before the solicitation due date and time.

If available and applicable, the Contractor should also provide its Defense Contract Audit Agency (DCAA) point of contact, including the Branch Office name, auditor name, phone number and e-mail address.

**5.2 Other Required Documents:** Offerors should be aware that, upon receiving an award, the following additional documentation will be required:

**5.2.1 Non-Disclosure Agreement:** Each employee of the successful Offeror will be required to sign a Non-Disclosure Agreement (NDA) prior to commencing work under this Order. The supervisor/manager of the proposed personnel will also be required to sign the NDA on behalf of the Contractor. Attachment A is the NDA that shall be used at the commencement of this order.

**5.3 Proposal Submission:** The due date for receipt of proposals for this solicitation is no later than 2:00 PM Eastern Time on Monday, 15 May 2006. All proposals must be uploaded electronically via the "[Upload Proposals](#)" hyperlink, which is under the hyperlink for this solicitation on ONR's MATOC website. (Note: this site restricts the formats of uploaded documents to those in MS Word, MS Excel, or PDF.)

## **6.0 Evaluation Information**

**6.1 Evaluation Criteria:** A Task Order will be awarded to the responsible offeror whose offer represents the best value to the Government. In order to determine which offeror represents the best overall value, offers for individual task orders will be evaluated on the following Technical and Price/Cost Factors:

### Technical Factors

- (1) Proposed personnel
- (2) Management Plan and Technical Approach
- (3) Past performance on similar tasks under precedent and other contracts

### Price/Cost Factors

- (5) Cost

The Government will make a determination of the overall value of each proposal in terms of its potential to best satisfy the needs of the Government, considering both Technical and Cost Factors.

The Offeror's technical capability (as measured by the Technical Factors) is significantly more important than the Cost Factor. In regards to the stated Technical Factors, Technical Factor 1 is of the greatest weight; Technical Factors 2 through 3 are equally weighted.

Although Cost is significantly less important than all of the Technical Factors combined, it will not be ignored. The degree of its importance will increase with the degree of equality of the Task Order proposals in relation to the other factors on which selection is to be based, or when the Cost is so significantly high as to diminish the value of the technical superiority to the Government.

In evaluating past performance on individual orders, the procedural requirements in FAR 42.15 are not mandatory. Past performance will be based on the Government's subjective evaluation of the Contractor's performance with previous orders, if any, under precedent contract and similar contracts.

**6.2. Award:** The Government will award a task order to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, cost and other factors considered. The anticipated award and start date of this Order is on or about 3 JUN 2006.

#### **7.0 Submission of Questions:**

Any questions regarding this solicitation must be provided in writing to the Point of Contact listed below. Acceptable forms of written question submission include fax and e-mail. Questions submitted less than 72 hours prior to the closing date for proposals may not be answered and the due date for submission of proposals may not be extended.

#### **8.0 Solicitation Amendments:**

Any amendments to this solicitation will be posted along with the solicitation on the ONR website. It is the Offeror's responsibility to regularly check for any postings of solicitations, amendments, and questions and answers under this or any other MATOC Solicitation.

#### **9.0 Point of Contact:**

The Primary Point of Contact for this solicitation is Ms. Toni Cristinzio, Contract Specialist/Contracting Officer, E-mail: [cristit@onr.navy.mil](mailto:cristit@onr.navy.mil), telephone (703) 696-8448.

The Secondary Point of Contact for this solicitation is Ms. Vera M. Carroll, Branch Head/Contracting Officer, E-mail [carrolv@onr.navy.mil](mailto:carrolv@onr.navy.mil), telephone (703) 696-2610.

**Non-Disclosure Agreement Regarding Contractor Support  
for the Office of Naval Research**

The undersigned individual, \_\_\_\_\_, agrees, both in his personal capacity and as an employee of \_\_\_\_\_ as follows:

**BACKGROUND**

1. The mission of the Office of Naval Research is to plan, foster, and encourage scientific research and technology development in recognition of their paramount importance in the maintenance of future naval power and the preservation of national security. ONR provides for the continuing technological superiority of U.S. naval forces, by providing the Department of the Navy (DoN) with mission-relevant, affordable new capabilities that create and exploit scientific breakthroughs, respond to fleet requirements, and support strategic U.S. industries. ONR requires contractor technical services and research support in order to meet these requirements. The services/support that may be provided to ONR by contractor personnel include but are not limited to the following:
  - i. Assist ONR personnel in overall technical program management support on matters and issues consistent with ONR sponsored development projects, including assisting in the evaluation of white papers, proposals, program/project planning, investment reviews, technology assessments, data analyses, conference and seminar activities, and financial issues.
  - ii. Provide support in the financial execution of ONR programs. Monitor availability and use of funds. Review financial documents and plans for impact on program objectives and requirements. Prepare internal financial notices, instructions, guidelines and reports. Conduct analyses and provide reports that identify, quantify and evaluate financial execution of accounts and accomplishment of program goals and milestones. Coordinate preparation and review of actual and projected funding estimates, justifications and strategies. Identify deficiencies, excesses, trends and imbalances to assure funds availability. Work with program personnel to expedite financial execution and ensure programmatic benchmarks are met.
  - iii. Draft analyses, presentations, notes, assessments, testimonies, speeches, and other materials on various technical/management topics, as requested, for use by ONR personnel with other internal ONR departments and externally with the Navy staff, Department of Defense, other federal and state agencies and the U.S. Congress.
  - iv. Provide assistance in the areas of information technology to include database design and maintenance, software development, graphics and reproduction, and other allowable materials and services.
  - v. Provide administrative and management support in the execution of ONR programs to include the preparation of official documents and files for execution by Government employees.
  - vi. Provide support on technical, programmatic and operational matters pertaining to the diverse array of technologies investigated and supported by ONR.
2. The undersigned individual is serving as contractor support for ONR. As such, he has and will continue to come into contact with proprietary technical and commercial information. He likewise will have access to sensitive internal information developed by or on behalf of the Government in connection with the accomplishment of ONR's mission.

**AGREEMENT**

1. The undersigned individual agrees that he will not disclose to any individual, company, or Government Representative<sup>1</sup> any information<sup>2</sup> relating to current or proposed Navy budgetary information, acquisition planning or acquisition actions, obtained either directly or indirectly as a result of the effort performed on behalf of ONR. The undersigned individual agrees that he will promptly notify the ONR Office of Counsel of any attempt by an individual (including any contractor personnel), company or Government Representative to gain unauthorized access to such information, and of any disclosure of such information to unauthorized parties. Such notification shall include the name and organization, if available, of the individual, company or Government Representative seeking access to such information.
2. The undersigned and his employer acknowledge that the owner of any proprietary information improperly disclosed stands as an intended third-party beneficiary of this non-disclosure agreement. In the event of an unauthorized disclosure of proprietary information, the owner of the information may seek legal recovery under this non-disclosure agreement, even though the information owner is not a formal party to the agreement.

FOR THESE REASONS the undersigned individual agrees on his own behalf, and his employer likewise concurs, to protect, respect and not disclose the proprietary information and Government mission- and procurement-sensitive information that may come to their attention as part of the contract assistance provided to ONR.
